

ILB-LOKI

INTEGRATED LOAD BEARING LOKI sUAS PACK

The PROJECT7 **INTEGRATED LOAD BEARING LOKI sUAS PACK** (ILB-LOKI) is built to house and provide an operating platform for deployment of the Sky-Hero LOKI Mk2 sUAS. ILB-LOKI is designed to facilitate two LOKI Mk2 sUAS, one Ground Control Station (GCS), 10 batteries, all battery chargers, spare propellers, replacement ducts, and other accessories for tactical deployment of the LOKI System.

KEY FEATURES

Key features for **ILB-LOKI** include:

- Top external 10.25"x5.25" padded top pocket built to carry and protect the LOKI GCS
- Bottom external 10.25"x9.5", elastic-lined bottom pocket built to carry four batteries as well as battery chargers as well as a mesh pouch to store loosed cables and adapters
- Six external side battery compartments providing rapid access to replacement batteries while flying
- Large 11"x16.5" internal padded, isolated compartment with custom built foam system, to house two LOKI sUAS as well as spare propellers and ducts for infield repairs
- Webless MOLLE/PALS surfaces on the outside of the pack for additional gear attachment
- Removable shoulder straps with magnetic sternum strap
- ILB-LOKI is constructed of Blue Force Gear Ultracomp and 500D Cordura

NOTE: ILB-LOKI is fully compatible with the PROJECT7 ILB vest integration system sold separately.
