

ILB-MD

INTEGRATED LOAD BEARING MEDICAL PACK

The PROJECT7 **INTEGRATED LOAD BEARING MEDICAL PACK** (ILB-MD) was designed from the ground up for tactical medics and search and rescue personnel. Featuring a rugged yet compact design with five external pockets and six removable throw pouches, the ILB-MD is the result of a years of research and the input of physicians, paramedics, EMTs, and tactical medics.

KEY FEATURES

Key features for **ILB-MD** include:

- Six removable, transparent, hook and loop backed, internal throw bags (four 5.5"x5.5"x3" and two 11.0"x2.75"x3") with top zippers to allow visualization, access, and immediate distribution of crucial supplies
- External 10.5"x5.75" Hemorrhage control pocket with four elastic straps to hold four SOF-T wide tourniquets or gauze as well smaller pockets and a mesh pouch for chest seals, surgical sponges, and other essential supplies
- Two large 5.5"x10" external zip pockets built to hold hemorrhage control kits, rolled gauze, gloves, or other supplies
- Two 3.5"x6" side surface pockets with magnetic closures to hold decompression needles, pens, cyalume lightsticks, and other essential supplies
- Four side-mounted tool pockets for immediate access to shears, tweezers, or other small tools
- Webless MOLLE/PALS surfaces on the outside of the pack for additional gear attachment
- Removable shoulder straps with magnetic sternum strap
- ILB-MD is constructed of Blue force Gear Ultracomp and 500D Cordura

NOTE: ILB-MD is fully compatible with the PROJECT7 ILB vest integration system sold separately.
